

Thermoformers

ULMA TFS 200

The TFS 200 is a thermoforming machine designed to pack food non-food or medical products. The package is created directly by the machine using two rolls of film.

Vacuum with gas flushing is available as an option.

The TFS series offers the ideal way to advance from manual packaging to automatic packaging.

Features & Benefits

- Increased Productivity
- Reduced Package Cost
- Improved Product Appearance
- Faster Product Loading

Technical Specifications

Film Width	420mm
Advance	300mm
Depth of Pack (max.)	110mm
Loading Area	Single Operator
Water Consumption	60 - 100l/h, 10°C
Pneumatic Consumption	300 - 500l/min, 6 bars
Electrical Specifications	400V +/- 10% triphase + N + ground - 50/60Hz
Reader	Eye Mark Reader for Printed Film
Vacuum Pump	German Busch 160m ³ /h
Discharge Conveyor	500mm

Services Required

Power	32amp 400V
Compressed Air	6 - 8 bar 110lt per cycle
MAP Food Gas	Optional

Pack Formats

- One format included - select from below
- Additional formats available as an optional extra

Single Pack

370 x 280 Internal

Double Pack

180 x 280 Internal

Triple Pack

115 x 280 Internal

Four Pack

130 x 180 Internal

Common Applications:

Tofu

Bacon

Fresh Mince

Sausages

Salami

Cheese

Supplied by Viking Food Solutions

Viking Food Solutions is a dynamic, family-run company, providing leading-edge products to customers across Australia and New Zealand.

We focus on providing trusted, complete food processing and packaging solutions for all the challenges our customers' face.

Our local manufacturing and printing capability means we have far more control over the lead-times, quality, and customisability we offer customers. It also helps us leverage our technical expertise to go above and beyond for our customers; using cutting-edge technology and materials to extend shelf-life of food products, improve performance, minimise waste and create aesthetic appeal.

Because Viking Food Solutions is growing rapidly, we want to ensure our growth extends in the right direction. We prioritise continuous improvement, and consistent quality of products and services. We have recently acquired our ISO 9001 Certification, and enhanced our Quality Assurance and testing processes, and stringent product traceability program, to make sure we can guarantee this relentless excellence.

We are proud that our customers can rely on our products and service offering and are continually working to expand the range we offer and ensure we are at the forefront of technological advancements in order to regularly meet and exceed customer requirements.

However, with all Viking's emphasis on continual innovation, one thing that will never change is our customer-focussed commitment. Our experienced team spends time with our customers, to understand their business, product and processes and collaborate with them to provide a complete solution, tailored to their specific requirements.

To assist in this, we have implemented processes to make working with us easier and more streamlined, such as providing weekly stock reports, of any customised products we have created on your behalf.

Our ability to be agile in meeting your needs while leveraging our comprehensive global supply network means we can offer great value without compromise.

From our roots as a family-run Australian business, Viking has expanded to a market leader in providing food packaging across Australia, while holding to our core value of doing whatever we can to help our customers to grow.
