

Viking Dip Tank

Model V66

Designed for the shrink packaging of both full primal meat cuts and other processed food types. Manufactured from high grade Stainless Steel, these dip tanks will increase product output and provide product consistency. The dip tank process is designed to shrink the packaging material around the food to enhance the product presentation and improve the production freshness.

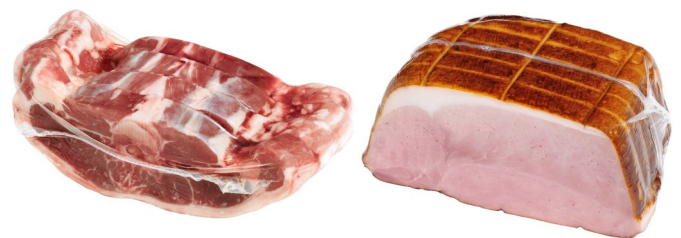

- Mobile on wheels with brakes
- Minimal splash
- Adjustable elevated controls
- Includes Heat Retention Balls
- Stainless Steel Construction

V66

Dimensions	740 x 770 x 1,055mm
Power	400V- 3 Phase - 50 Hz
Cycle Time	3-4 sec.
Chamber size	500 x 600 x 300mm

Model V66
