

VALUE ADDING

# Viking Planus Double Action Burger & Portion Former

The Viking Double Action Burger & Portion Former has heavy duty hardened gears, produces 70 units/min and is operated using a pneumatic foot controlled pedal which allows the operator to have both hands free at all times.

Standard with large 40lt Hopper & extended 1000mm conveyor.

## Standard Technical Specifications

<b>Capacity</b>	up to 4200 units / hour
<b>Hopper Capacity</b>	40L
<b>Dimensions (L x W x H)</b>	590 x 715 x 705mm
<b>Power Supply</b>	415V 10A 3 Phase 0.75kW
<b>Conveyor Length</b>	1000mm

The Viking Planus Double Action Burger & Portion Former is compact, robust and easy to operate. Due to its small size and high output rates it can be easily adapted into any size production lines.

Popular feature of the Planus Double Action is the quick-release insert drum allowing the operator to change the shape, weight and thickness of the burger on the go.

Process up to 4,200 burger patties per hour, all at identical weight, size and thicknesses.

The machine is controlled by an air operated foot switch allowing the operator to have both hands free during operation to load the burgers onto trays.

Modifications made to the machine at time of purchase may change the technical specifications.
