

VALUE ADDING

# Viking Planus Single Action Burger & Portion Former

The Viking Planus Single Action Burger & Portion Formers are designed to be used in the manufacture of many different shaped burger patties, all to a uniform size and weight.

The machine is operated using a pneumatic foot controlled pedal which allows the operator to have both hands free at all times.

## Standard Technical Specifications

<b>Capacity</b>	up to 2100 units / hour
<b>Hopper Capacity</b>	32L
<b>Dimensions (L x W x H)</b>	590 x 715 x 705mm
<b>Power Supply</b>	0.33kW / 240V
<b>Conveyor Length</b>	350mm

The Viking Planus Single Action Burger & Portion Former is compact, robust and easy to operate. Due to its small size and high output rates it can be easily adapted into either small or large production lines.

Popular feature of the Planus Single Action is the quick-release insert drum allowing the operator to change the shape, weight and thickness of the burger on the go.

Process up to 2,100 burger patties per hour, all at identical weight, size and thicknesses.

The machine is controlled by an air operated foot switch allowing the operator to have both hands free during operation to load the burgers onto trays.

Modifications made to the machine at time of purchase may change the technical specifications.

## Features

High Efficiency - 35 units/min

Optional shape forming drum

Automatic paper feed

32L Hopper size
