

Skin on tray & MAP

PACKAGING EQUIPMENT

ULMA TSB 300 Tray Sealer

The TSB 300 is a fully automatic tray sealing machine, designed for customers looking for an entry-level automated machine with higher production capacities.

Trays are automatically transported via rod-bars in the entry conveyor to the sealing station, sealed, gas flushed and then passed to an exit belt.

Designed to work with a wide range of tray shapes and sizes, with cut inside or cut outside.

Standard Technical Specifications

Dimensions L x W x H	2700 x 1180 x 1700mm	MAP packs / min	22/min
Sealing Area	300 x 440mm	Skin on tray packs / min	12/min
