Viking AST86 Auto String Tyer

Viking Automatic Sting Tyer – Ties up to 86 knots / min and 30mm increments with the largest product tunnel than any other string tyer available, even briskly coping with the largest of pork joints!

Most efficient automatic string tyer on the market in the world!

Standard Technical Specifications

Output	86 knots / min - market leading record!
Knot Increments	30mm
Dimensions H x W x D	2017 x 3312 x 806mm
Power Requirements	415V / 20A

Wide Infeed – The Viking AST is 150mm wider than any other on the market – coping with the largest of pork joints

Low Maintenance – simple tying head removal system to remove the head in under a minute

High Quality Construction – Constructed only of stainless steel and brass meaning it can be cleaned with a power hose

One Piece Design – no water ingress allowed with connections between the machine and conveyors removed

Simple to Get Started – Automatic set up in 7 steps

On wheels – Broken castors ensures secure footing while working and easy movement when required

Utilities – operated with compressed air and 3 phase power

Modifications made to the machine at time of purchase may change the technical specifications.
