

LeafSkin™

LeafSkin™ is one of our most sustainable tray sealing packaging solutions. It incorporates an easy-open corner to remove the lid and a recycling corner to separate the different materials and make the recycling process easier.

#ULMAweCare _ BENEFITS

- 100% recyclable cardboard
- Up to 80% plastic reduction
- Fully separable materials

Increased shelf life

Easy of recycling

Highlight and improve product appearance

The LeafSkin™ solution is a skin protruding packaging application in tray sealing machines, which is available in different models, types of cut and presentation.
(CUT ON TRAY & CUT OUTSIDE in TSA range) (CUT OUTSIDE in TSB range)
